New Austrian eID

Factor Knowledge: Password

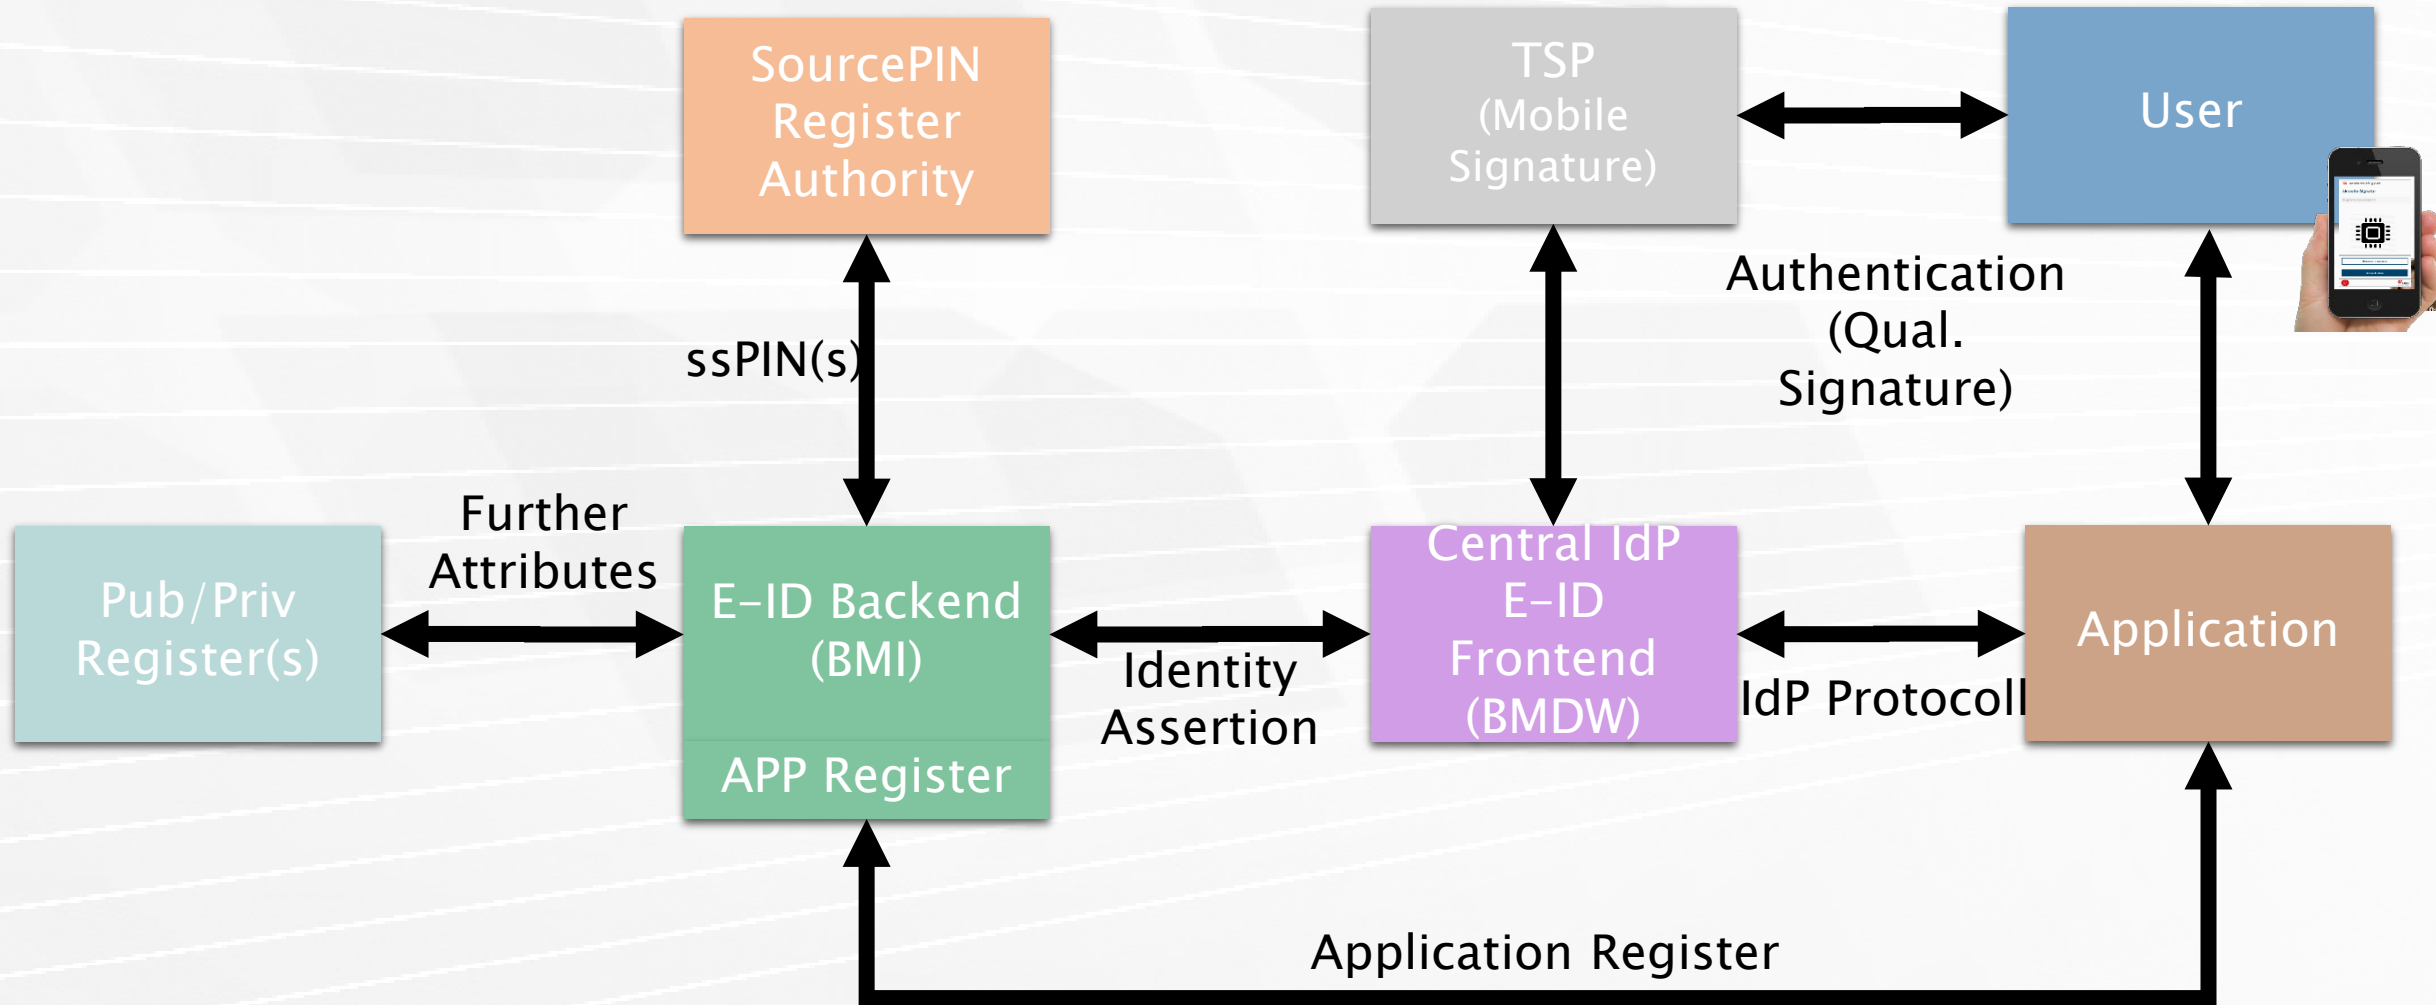

Factor Possession: Secure Element

Factor Inherence: Biometric (Fingerprint, Face-ID)

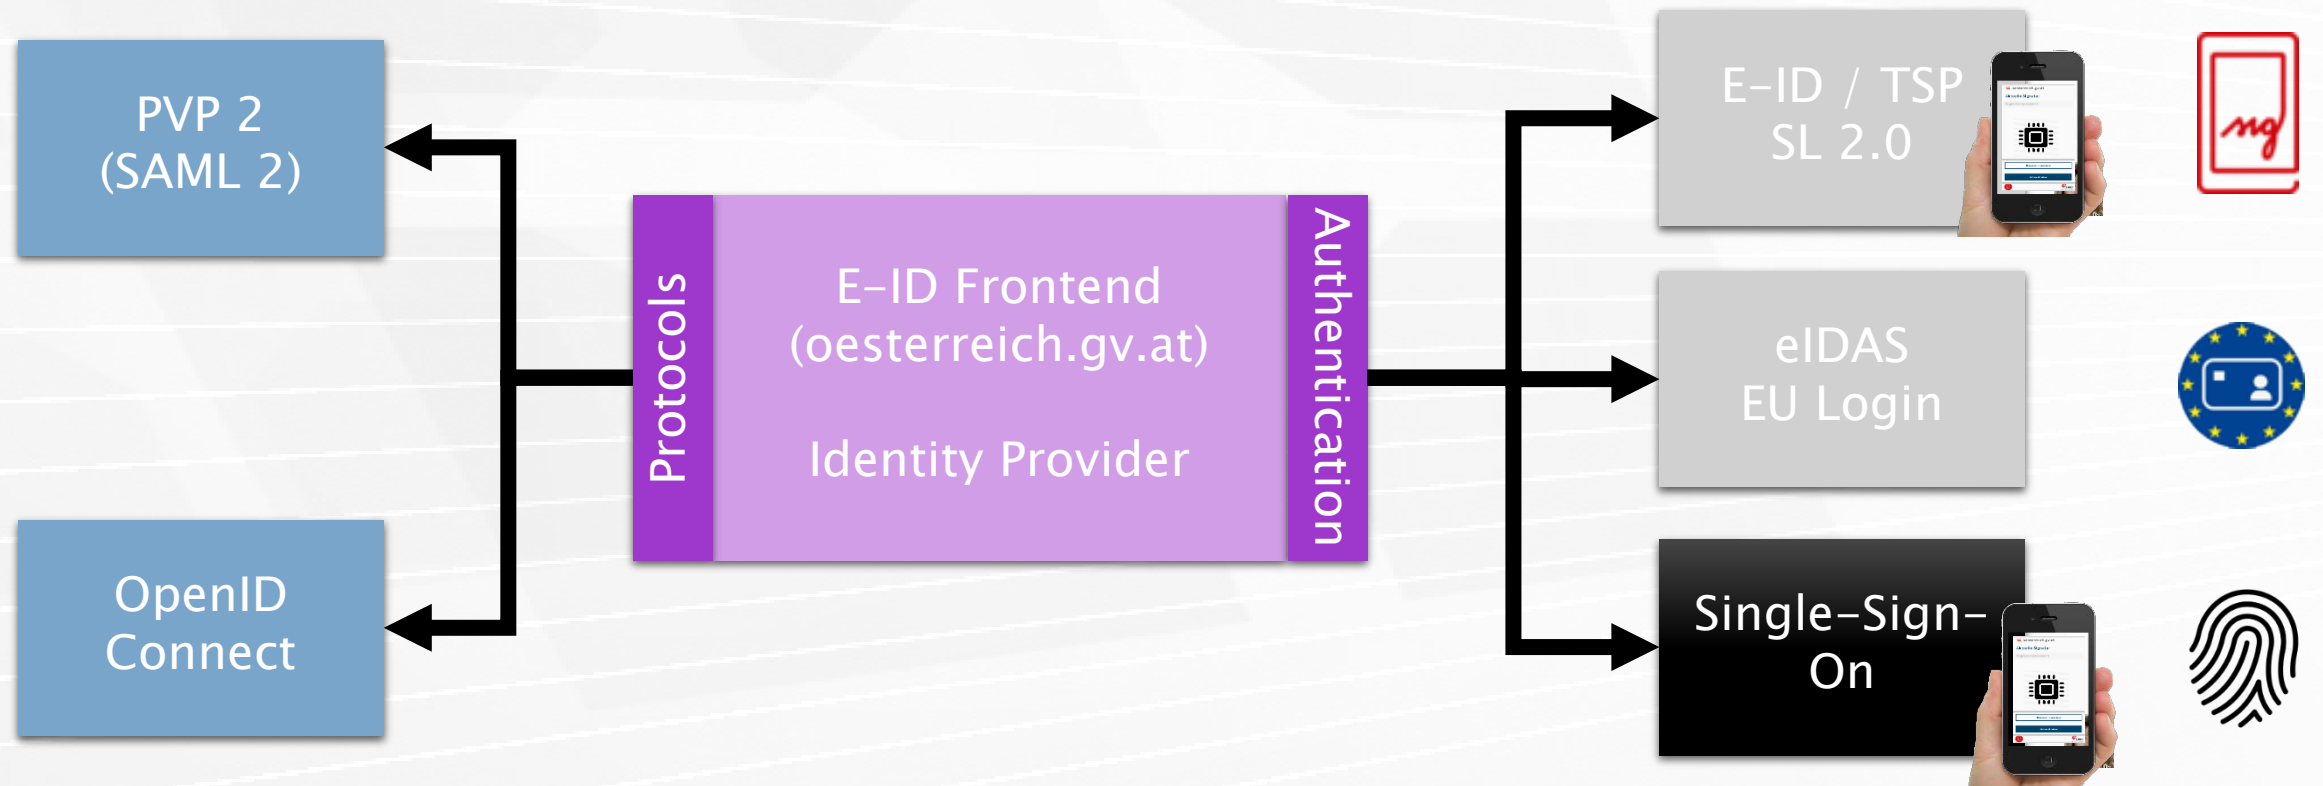

Main Changes

- « **Governmental Identity Proofing process**
 - « Passport offices, municipalities, national police forces, ...
- « **Unique identifier not disclosed to service providers**
 - « Just a list of (encrypted) sector-specific PIN
- « **Central Identity Management**
 - « **Central Identity Provider operated by SourcePIN Register Authority**
 - « Central Application Register
 - « **Creation of an Identity Assertion**
 - « Minimum Data Set / (encrypted) ssPIN(s)
 - « Mandate information in case of representation
 - « Further attributes (registered address, marital status, driver's license number, ...)
 - « **Support of eIDAS eIDs**

E-ID: Block-Architecture

Identity Provider – Features
